Marine Project
partner**

 **TAMS GROUP**

TAMS Group – one of Australia’s most diverse and accomplished marine services providers

We are a proven supplier of port services, marine maintenance and marine construction solutions to the Australian & Papua New Guinea inshore and coastal maritime sector.

Proudly Australian-owned and operated, we provide marine and port solutions to the port, shipping, mining and resources sectors.

We can take on any inshore and coastal project, any size, anywhere in Australia PNG and the South Pacific. Our proven track record and specialist capabilities are underpinned by more than 30 years of experience.

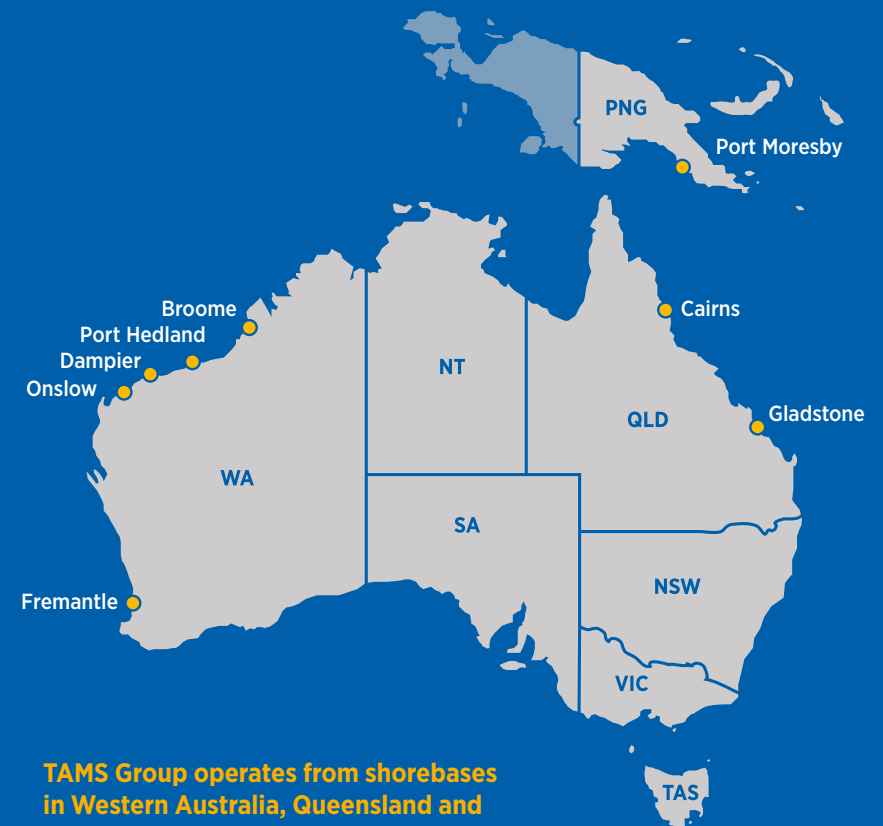

Whatever your requirements – our fleet of marine charter vessels and our shore base locations all contribute to delivering the best possible outcomes for your business.

Our teams assess each project, assemble the right equipment, and meet deadlines to safely deliver a diverse range of quality marine services to all our customers.

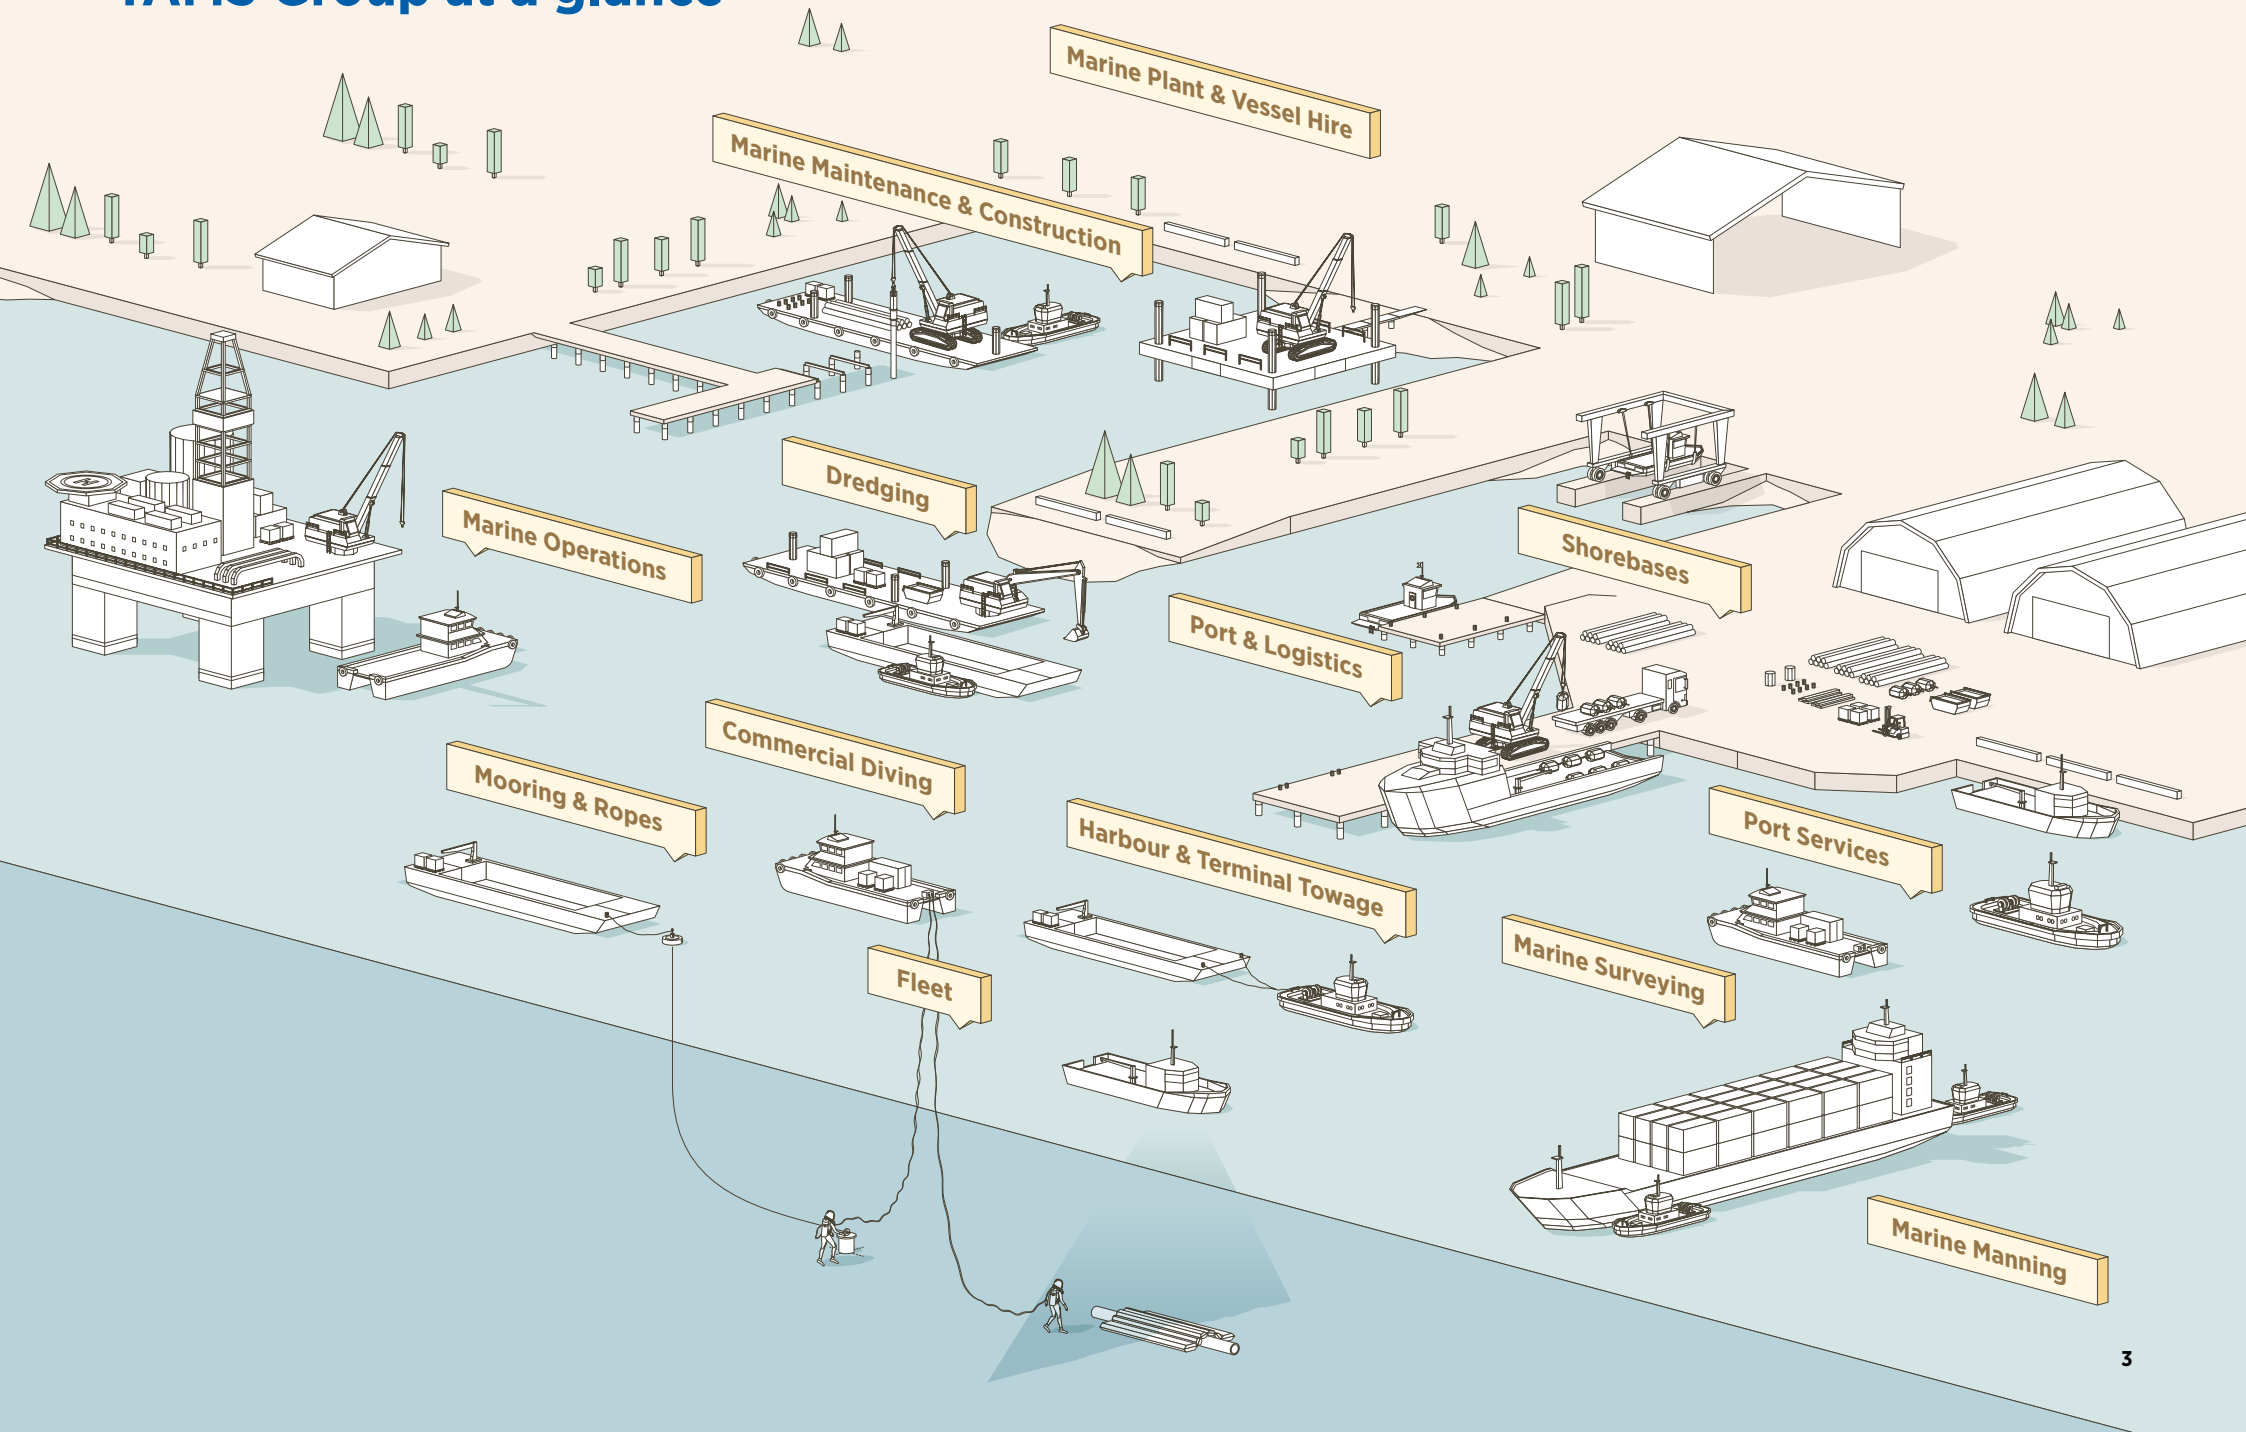

“ Our specialist capabilities allow us to provide a diverse range of services for any marine or port project within time and budget”

Our Shorebase locations

Our strategically-located shorebases offer specific capability and local expertise to satisfy ongoing customer requirements. We can access company-wide support and services for larger marine maintenance and construction projects.

TAMS Group at a glance

Shorebases

TAMS Shorebases are strategically located in Western Australia, Queensland and PNG to deliver our extensive capability from local operations hubs.

Our Shorebases enable customers to access the wide service, maintenance and project capability of TAMS delivered with the benefit of local know-how and experience.

- Vessel Maintenance & Refit
- Slipway and Vessel Lifting
- Vessel Maintenance & Refit
- Blast & Paint
- Plant & equipment hire
- Mobile Cranes
- Warehousing
- Laydown Areas
- Quarantine Capability
- Logistics
- Project Mobilisation
- Vessel Mobilisation
- Port & Marine Maintenance
- Local Project Capability
- Mooring & Ropes

Port Services

Our experienced Port Services team provide a range of customer focused industry leading services to support port and terminal operators, Shipping Agents, vessel operators, port operations and maintenance including:

- Cargo Survey
- Harbour Towage
